Module Final Project Part 1:
Part 1 of the Data Analysis/Interpretation Paper
Background Information

School and Class Context
- **Demographics**
- **Overview of previous achievement results**
- **Areas of needed program enhancement identified in the most recent School Improvement Plan**

This portion of your final product should include a **detailed** data findings and interpretation summary about the school you have been assigned. Using any or all the sources of data available, (that you explored through your earlier exercises) provide a detailed background summary of this school.

What population does it serve? (socio-economic/gender/ethnic/FARMS data)
How did the school perform on last year's state technology inventory? Based on last year's performance scores (i.e. AYP), what areas are of concern for this school? Any other demographics you can pull up from the numerous data resources you were able to skim through in your readings and earlier assignments.

Include charts, graphs and other visual organizers to help explain your findings. Make sure you include data findings as well as your interpretation of the data findings.

The **Module Final Project Part I** is due by or before **Nov. 1st, 2004**. Send as a Word attachment via email to dp151@umail.umd.edu
