  - Examples of how to create a cyberethics lesson plans:
    - http://www.fcps.k12.va.us/DeerParkES/kids/CyberSafety/index.htm
  - Online interactive resources to have students try out
    - http://www.cybercitizenship.org/4kids/4kids.html
  - Resources to have students check out
    - http://www.staysafeonline.info/secsites.adp
  - Safety course that your students could do
    - http://www.staysafeonline.info/enroll.adp
  - *Tech Talk* online video and audio that talks about various resources and topics
    - http://www.staysafeonline.info/curriculum.adp

May 27, 2003   Cyberethics Session (1): Davina Pruitt-Mantle   42

- Cut and paste the links:
    - **Classroom activities**
        - Lesson plan:
        http://www.amphi.com/~technology/standards/lessons/crockett3.html
        Within the lesson plan are several good links –including --
        http://www.usdoj.gov/kidspage/ click on Youth (6th-12th) -> Are you a good Citizen? -> choose any of the topics and take the quiz
    - **Resources and how to use them**

- Examples of how to create a cyberethics lesson plans:
  - http://www.fcps.k12.va.us/DeerParkES/kids/CyberSafety/index.htm
- Online <u>interactive</u> resources to have students try out
  - http://www.cybercitizenship.org/4kids/4kids.html
  Try one or two yourself
- Resources to have students check out
  - http://www.staysafeonline.info/secsites.adp
  Try one from the Get Netsmart series
- Safety course that your students could do
  - http://www.staysafeonline.info/enroll.adp
  This is a series of interactive course modules
- *Tech Talk* online video and audio that talks about various resources and topics
  - http://www.staysafeonline.info/curriculum.adp
  Takes awhile to load up the movie clips-but once loaded do not have to do again. Perhaps do ahead of time ready for the class.
